Since this is a routine matter that will only effect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Proposed Amendment to Class E Airspace; Cordova, AK

AGENCY: Federal Aviation Administration [FAA], DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to modify the Class E airspace area at Cordova, AK, to accommodate Visual Rules (VFR) traffic in the Cordova area, landing and departing from the Cordova Muni (CKU) airport located about 10 miles west of Merle K. "Mudhole" Smith (CDV) airport. Due to terrain limitations, VFR traffic must pass through the northern portion of the Cordova Class E surface area. When the Class E surface area is below basic VFR and Special Visual Flight Rule (SVFR) operations are being conducted, numerous delays are experienced. The area will be depicted on aeronautical charts to provide a reference for pilots operating under VFR.

DATES: Comments must be received on or before February 13, 1995.

ADDRESSES: Send comments on the proposal in triplicate to: Manager, Airspace & System Management Branch, AAL–530, Federal Aviation Administration, Docket No. 94–AAL–10, 222 West 7th Avenue, #14, Anchorage, AK, 99513–7587.

The official docket may be examined in the Office of the Assistant Chief Counsel for the Alaskan Region at the same address.

An informal docket may also be examined during normal business hours at the address listed above.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments

are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify the airspace docket number and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. 94–AAL–10." The postcard will be date/time stamped and returned to the commenter. All communications received on or before the closing date for comments will be considered before asking action on the proposed rule. The proposal contained in this notice may be changed in light of comments received. All comments submitted will be available for examination in the Rules Docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM's

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Manager, System Management Branch, AAL–530, 222 West 7th Avenue, #14, Anchorage, AK, 99513–7587 or by calling (907) 271–5898. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11–2A, which describes the application procedures.

The Proposal

The FAA is considering an amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) to provide required controlled airspace for Instrument Flight Rules (IFR) procedures at the Merle K. "Mudhole" Smith Airport and allow Visual Flight Rules (VFR) aircraft to proceed through the northern portion of the current Cordova Class E surface area. The reduction in Class E surface area will segregate aircraft operating under VFR conditions from aircraft operating under IFR procedures. The area would be depicted on appropriate aeronautical charts thereby enabling pilots to circumnavigate the area or otherwise comply with IFR procedures. Class E airspace designations for surface areas of an airport are published in paragraph 6002 of FAA Order 7400.9B, dated July 18, 1994, and effective September 16,

1994, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involved an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

[Airspace Docket No. 94–AWA–5]

Proposed Modification of the Birmingham Municipal, AL, Huntsville International-Carl T. Jones Field, AL, Columbia Metropolitan, SC, and Chattanooga Lovell Field, TN, Class C Airspace Areas and Proposed Establishment of the Huntsville International-Carl T. Jones Field, AL, and Chattanooga Lovell Field, TN, Class E Airspace Areas

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This proposed rule would modify the Class C airspace areas at Birmingham Municipal, AL, Huntsville International-Carl T. Jones Field, AL, Columbia Metropolitan, SC, and Chattanooga Lovell Field, TN, Airports. This proposed action would correct the name of the Birmingham Municipal Airport to Birmingham International Airport, and modify the Columbia Metropolitan, SC, airspace designation to reflect continuous operation and availability of services, therein. The effective hours of the Huntsville International-Carl T. Jones Field, AL, and Chattanooga Lovell Field, TN, Class C airspace areas would be amended to coincide with the associated radar approach control facility's hours of operation. Class C airspace areas are predicated on an operational air traffic control tower (ATCT) serviced by a radar approach control facility. This proposal would not change the designated boundaries or altitudes of these Class C airspace areas. In addition, this notice proposes to establish Class E airspace at Chattanooga Lovell Field, TN, and Huntsville International-Carl T. Jones Field, AL, Airports when the associated radar approach control facility is not in operation.

DATES: Comments must be received on or before January 23, 1995.

ADDRESSES: Send comments on the proposal in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket [AGC–200], Airspace Docket No. 94–AWA–5, 800 Independence Avenue, SW., Washington, DC 20591.
